VETTER WINDOWS ANNOUNCES WINNERS OF FOURTH ANNUAL VIP AWARDS

MOSINEE, Wis. — Vetter® Windows & Doors announced today the winners of the 2004 Vetter Inspired Project (VIP) awards, the annual design contest that recognizes architectural inspiration and ingenuity among architects and custom builders. In the 2004 contest, winners were selected in five of six categories by five professionals related to the field of architecture and custom design.

“This year’s VIP winners demonstrate the versatility and uniqueness architects and professional designers can bring to personal residences,” said Jeff Kibler, Vetter brand manager. “From dramatic roof lines to the thoughtfully selected materials, these projects represent some of the finest residential projects. We’re excited to share these projects with the industry and consumers.”

Vetter has been manufacturing millwork products since 1892. Based in Mosinee, Wis., the company manufactures architecturally inspired wood windows and patio doors. Products are sold nationwide through building material dealers. For more information about Vetter’s complete product line and the VIP Awards, visit www.vetterwindows.com.

Best Custom Home Under 3,000 Square Feet: Shelter Island Farmhouse

The architectural styles of houses in the Hamptons and Shelter Island, N.Y. are in stark contrast to the lofts of Manhattan. Architect Ian McDonald, AIA, designed the winner of the Best Custom Home under 3,000 Square Feet category. The Shelter Island Farmhouse is a quaint four-bedroom house with detached garage. While the exterior looks like a 1800s-era structure, the interior features the latest in design and conveniences, including a professional-grade kitchen with custom cabinets and top-of-the-line appliances, a wood-burning fireplace with a custom mantle, and 5-inch white oak floors stained dark walnut throughout the house. The exterior is cedar shingle siding with white windows and trim, with a wrap-around porch. Vetter primed wood double hung windows, French patio doors and custom shaped windows were supplied by Speonk Lumber Corporation.
